How can I add a tag? What is a tag?
A tag is a way to add some information to an item, such as a place or persons name. These tags then become language that can then be searched. For example, if there are several items that are related to Lake Superior a user can tag the item with "Lake Superior." Once the tag has been approved future users will be able to perform a search using "Lake Superior" and retrieve results of items that have been tagged with that term. This makes it easy to identify like items and thus make searching easier.

To "tag" an item, select the item you want to and then scroll down to the end of the page. Just below the metadata there will be a drop down menu called "Tags." Click on the word "Tags." This will open up the area where you can add information you wish to include to the item. Once you are satisfied with your tag, click on "Save Tags" to have it sent to the administrator for approval. Once it is approved you have "tagged" an item!
